

**Department of Social Work  
Question Bank**

**SUBJECT: Social Work Research and Social Statistics**

**Staff Name: Ms. S. Sasikala**

**SUBJECT CODE: PSW806S**

**2 Marks**

1. Brief the meaning of Social Work Research.
2. Write a note on Mixed Social Work Research.
3. What you meant by Research Design.
4. Reliability: Meaning.
5. What is called Primary Data?
6. What do you mean by Pre-Test?
7. What do you mean by Code Book?
8. Mention the need for Time Budgeting.
9. Narrate the term Standard Deviation.
10. Explain about "T" test.
11. Define Social Research.
12. List out the Objectives of Social Research.
13. What are the types Social Research?
14. How do you identify the Research Problem?
15. Define Research Design.
16. What is Sampling?
17. What is the importance of Observation?
18. What do you mean by Hypothesis?
19. List out ten Social Problems.
20. What is interview Schedule?
21. What is meant by Data Editing?
22. Define Qualitative Research.
23. List out types of Qualitative Research.
24. List out the element of Research Project.
25. What are the parts of Table?
26. Define Tabulation.
27. List out the types of Diagram.
28. What is meant by Coding?
29. Define Graphic Presentation.
30. What is meant by Statistics?

31. What is meant by the term Research?
32. Define Social Work Research.
33. Define Scientific Method.
34. List out the Criteria's of Good Research.
35. List out the types of Variables.
36. What do you mean by Review of Literature?
37. Find the median 158,167,143,169,172,146,151.
38. What is Mean?
39. Find the mode.44, 67, 43, 44, 55, 44, 55, 88.
40. Mention the merits of Arithmetic Mean.
41. List out the types of Report.
42. What is Structured Questionnaire?
43. Define Sampling.
44. What is meant by Population and Universe?
45. List out types of Observation.
46. What are levels of Measurement?
47. What is Coding Sheet?
48. What are the methods of Data Collection?
49. What is meant by Pilot Study?
50. What are the types of Sampling?

### **5 Marks**

1. Explain the Characteristics and Purpose in Research Process.
2. Explain the Variables and its Types in Social Research.
3. Elucidate the different types of Research Design.
4. Write the meaning of Measurement in Research.
5. Explain the various types of Questions
6. Point out the merits and demerits of Interview Schedule.
7. Explicate the Role of Agencies involved in Social Research
8. Describe the Limitations of Social Work Research.
9. Explain the Characteristics of Statistics.
10. Explain the term Correlation in Social Research.
11. Elaborately explain about the steps of Social Work Research.
12. What are the Types of Sampling? Explain in detail.
13. What is Survey? Explain in detail.
14. Prepare a Research proposal for your own Research.
15. Elaborately explain about the Methods of Qualitative Research.
16. Explain in Detail about the Types of Statistics.
17. What are the differences between Qualitative and quantitative research?

18. Write an essay on Tabulation.
19. Elaborately explain about Diagrammatic Presentation.
20. Write an essay on the Characteristics of Scientific Method.
21. What are the steps in Research Process?
22. Write a research proposal on the title “A Study on the Academic Problems faced by the students at St. Joseph’s College of Arts and Science, (Autonomous), Cuddalore.
23. Explain the Types of Observation.
24. Write a Research Proposal on any Topic.
25. What are the steps in Research Process?
26. What are the Sources of Hypothesis
27. Explain the source and methods of Data Collection.
28. Explain in detail about the Sampling and Universe.
29. Present a Research Proposal on your own Research topic.

### **10 Marks**

1. Explain the Purpose and concepts of Social Work Research in detail.
2. Explicate the term Measurement and different Levels of Measurement
3. Elucidate various Types of Research Tools
4. Explain the key aspects of Data Processing and analysis in Social Work Research.
5. Define the Mean, Median, and Mode of a Frequency Distribution and discuss its relative advantages.
1. Discuss the Sources, Types, Attributes and Formulation of Hypothesis.
2. Define Sampling. Explain Types of Sampling
3. Discuss how Research Tools can be constructed effectively; indicating the Advantages and Disadvantages of various Research Tools.
4. Write a Research Proposal based on a topic of your interest.
5. From the data given below about the treatment of 250 patients suffering from a disease, state whether the new treatment is superior to the conventional treatment:

Treatment	No.Of patients		
	Favourable	Unfavourable	Total
New	140	30	170
Conventional	60	20	80
Total	200	50	250

(given for degree of freedom =1, chi square 5 per cent = 3.84)

6. Explain the Process of Qualitative Research with an example.
7. Explain the Methods of Processing of Data in research.
8. Calculate the mean for the following scores:  
200, 300, 600, 500, 100, 300, 600, 700, 300, 400
9. Explain the Types of Hypothesis with your own example.

10. Describe the Probability Sampling Methods with illustrations.
11. Prepare a model Interview Schedule for the topic “problems of high school students in the city”.
12. Describe the Types of Correlations with examples.
13. Describe the steps in Scientific Method. Explain the criticism on scientific method.
14. Examine the merits of various methods of Qualitative Research.
15. Explain in detail the Data Analysis and Processing of Data with example.
16. Discuss the application of various Non- Parametric tests while testing the Hypothesis
