The existing curriculum for PG Chemistry was taken for discussion. After discussion, it was concluded that the existing curriculum can be retained with a few changes in the scheme.

Uniform schemes were framed for the following Inorganic, Physical and Elective papers PCH702S, PCH703T, PCH806T, PCH807T, PCH910S, PCH911S, PCH1014S, PCH1015T and EPCH704T

It was decided to give 5 marks for record uniformly for all the practicals in semester examinations.

It was also decided to complete the total syllabus before the I- CIA examinations in the fourth semester. During the period before the I- CIA examinations, there should be only theory hours and after the I-CIA examinations the students should be engaged with their project works. This can be implemented from the academic year 2018- 2019 as there is no change in the syllabus.
