MEMBERS

Dr. V. Periyanayagasamy	Asst. Professor
Mr. M. Sebastian Marianathan	Asst. Professor
Mr. T. Antony Sandosh	Asst. Professor
Mr. G. Anand	Asst. Professor
Mr. B.Christina	Asst. Professor
Mr. S.Richard Rajkumar	Asst. Professor
Mr. F.Paul Arokiadoss	Asst. Professor

The meeting started with a prayer and the experts were formally introduced by the Chairman. The existing curriculum for B.Sc Chemistry was taken for discussion. The members of the Board of studies suggested a few inclusions and deletions which are listed below. It was also discussed and decided that the allied chemistry syllabus which is followed for B.Sc Bio-Chemistry can be followed for B.Sc Zoology.

Changes introduced:

The schemes for inorganic subjects with the subject codes CH203T, CH305T, CH510T and CH615S were revised. Certain topics were given twice in Analytical Chemistry – I (CH204T). Those repeated topics in Unit- V are now replaced by Chromatographic techniques. Hence the subject code is changed from CH204T to CH204Q.

Acid-Base titrations are included in the Allied chemistry practical ACHP202 and hence the subject code is changed from ACHP202 to ACHP202S.

PHYSICAL CHEMISTRY

In the subject **CH616S**, ionic mobility, Transport number and its determination (Hittorf's and moving boundary method), Fuel cells (H_2 - O_2 and hydrocarbon- O_2) and batteries-Primary and Secondary batteries were included. The paper code is changed from **CH616S to CH616T**.

The schemes for the Physical Chemistry papers CH102Q, CH408T and CH511S were revised.

No changes were introduced in Organic Chemistry papers.

In the Academic council meeting 2017 - 2018, suggestions were given on introducing "Forensic Chemistry" as an elective Paper. Based on the suggestions, the syllabus of "Forensic Chemistry" was discussed again with the Board of studies members and then introduced.

Distribution of credits for the subjects was restructured and the new curriculum design template is given below.
